Castlegate James Maltings are a mixture of Barley Malt Combing and barley co-products produced during the brewery process. Maltings are a cost effective nutritious co-product feed for inclusion in dairy, beef and sheep rations.

Suitable for:

### Benefits

Maltings offer the following features and benefits;

- Moderate level of crude protein
- Moderate ruminant Metabolising Energy

### Feeding guide

Maltings are ideally suited for inclusion in Total Mixed Rations (TMR's) for dairy, beef, and sheep production systems. Inclusion rates of up to 30% of total diet.

### Availability

Maltings are available on a long term and regular basis for customers wish to secure an ongoing supply. Customers can choose to purchase Maltings on a spot basis subject to availability or enter a contract to ensure guaranteed supply.

### Additional notes
